

First Introduction For The User Interface and explanation

The app is very user friendly and easy to be used. When user add (s)he postcode and click the search button a map will appear with (s)he postcode marked as (P) and the other services as (S). Next to the map the results will be shown with the ability to click on them and focused on the map.

By clicking the right settings button, a small dialog will appear and give the user the ability to select the max distance, the Units to count the distance to, and the Service (s)he needs.
